CANADIAN TROOPS HAVE BECOME THE TOAST OF LONDON

"AND THAT'S WHAT I LOOK LIKE in civilian duds," says a smiling corporal of the Princess Patricia's Canadian Light Infantry as he shows some snaps to girls they met in London, Eng.

EVERY SATURDAY the Overseas league in Piccadilly entertains men from Canada and other empire countries with gay parties to which various English women's units are also invited

THE BLACK WATCH, Royal Highland Regiment of Canada, from Montreal, moved into the Horse Palace at Toronto to complete training. A group of lads wearing battle

dress and khaki Balmoral bonnets, pay close attention as a killed officer instructs in the use of anti-tank guns. Many French-Canadians are enlisted with the unit

CANADA HAS A

QUESTION

*What would they like
for lunch or supper?*

CANADA HAS AN
ANSWER

Look for the
Red-and-White Label

THAT answer, again and again, is *soup* . . . and, more often than any other, Campbell's Tomato Soup.

If there is one soup more than any other which makes an instant appeal—and a *lasting* appeal—to people of all ages, that soup is Campbell's Tomato. It comes to Canadian tables, noon and night, again and again, often by special request.

Some like it as a rich, racy tomato soup, easily made by adding an equal quantity

of water. Here is a smooth purée of sun-ripened tomatoes, blended with golden butter of table quality, and seasoned lightly. Colorful, appetizing, delicious, it's always welcome—a soup you never tire of.

Others prefer it as a luscious cream of tomato, made by adding an equal quantity of milk instead of water. In this way the benefits of good, ripe tomatoes are combined with the sound food value of milk in a soup to please the family any time, or to grace a formal dinner. Is your pantry well stocked with Campbell's Tomato Soup?

NAZIS LAUNCH NEW ATTACK ON UNARMED TRAWLERS

GERMANY HAS LAUNCHED a new type of offensive on Britain and this time the small, unarmed fishing trawlers of the North Sea are the victims. Last week-end, more than 14 such vessels were attacked by German planes that dive out of the clouds and riddle the little craft with machine-gun bullets or steel darts. But neither North Sea storms nor Nazi attacks can stop heroic British fishermen from keeping this vital food supply line intact

CANADIAN SOLDIERS AT LONDON FUN FAIR

LAUGHING EYES SEEK BULL'S-EYES—Girls of the Mechanized Training Transport Company and Canadian soldiers of the first division from Aldershot barracks, enjoying leave in London, fraternized in a jovial mood at a "Fun Fair." Here the smiling lads and lassies in khaki, apparently forgetting all about the war for the time being, are shown engaged in keen competition at a shooting booth

FUN AT THE FAIR included the thrills of a speedy trip on the "Scooter." This woman ambulance driver of the M.T.T.C. is taking the Canadian soldier for a merry scoot and both seem to like it

MUSIC HATH CHARMS everywhere, especially on a troop train. This Canadian soldier violinist entertained his comrades as they were speeding by rail to a military centre after leaving their ship

CARNIVALS OF SNOW IN FULL SWING

FROM ALL PARTS OF CANADA holidaymakers trooped into Huntsville for its annual gala Carnival of Snows. Special ski trains carried full loads and a group of impromptu merry-makers from Havergal College put on dance in baggage car (right, above). On the open hills at Bethany, new Peterboro Ski club grounds where there are fast 1,500-foot runs, Peggy Armour (left), with her guest label prominent, smiled for the photographer

FRIENDLY NEIGHBOR PREPARED

THIS LINE FORMATION of U.S. Army Air Corps Boeing P-26 airplanes is not used by British. Combat planes of "P" class, pursuit ships, are built for fighting, not bombing. They must maintain superiority in speed, manoeuvrability, rate of climb

UNCLE SAM'S gas masks enable defence to hold position in face of gas attacks. U.S. defence budget for 1940 (\$1,619,157,717) and 1941 (\$2,321,197,309) was largest ever asked in peacetime

U.S. INFANTRYMEN kneel to fire upon attacking war planes. U.S. is to have 6,000 bombers; taxpayers' bill, \$300,000,000. See also additional pictures on next page

BRILLIANT DISPLAY in the night is occasioned by use of tracer bullets and exploding phosphorus bombs in peacetime manoeuvres

UNITED STATES FLEET is its first line of defence. U.S. naval policy was changed this year to provide for forces adequate to meet combinations of enemies, instead of a fleet equal to any single

power. Fleet is to be increased 25 per cent. Below: Camera catches unusual view of an eight-inch railway rifle after firing. It is part of U.S. elaborate coastal defence systems along both coasts

Make Your Choice this Easy "One-Two" Way!

1 First—go to your nearest Chrysler-Plymouth-Fargo dealer's showrooms and take a look at the 1940 Quality Chart! It gives you a quick revelation of how "all 3" low-priced cars compare in size, safety, engineering and value!

2 Take Plymouth's "Luxury Ride" for a thrilling confirmation of the facts you see on the chart—*then*, check and compare Plymouth's low, local *delivered* price! You will be agreeably surprised!

GET THE QUALITY YOU'RE ENTITLED TO IN 1940...

1. SEE THE QUALITY CHART FOR FACTS

2. TAKE THE "LUXURY RIDE" FOR PROOF

HERE'S HOW "ALL 3" LOW PRICED CARS COMPARE ON 22 BIG FEATURES FOUND IN HIGH-PRICED CARS

PLYMOUTH HAS 21 OF THESE FEATURES
CAR "2" HAS 11 OF THESE FEATURES
CAR "3" HAS 8 OF THESE FEATURES

21 TO 11 AND 8... that's Plymouth's big lead this year in quality features! No wonder it's so popular with Canada's value-seeking buyers!

People naturally expect to find the finest quality in the *highest-priced* cars. But here's a *low-priced* car with 21 out of the 22 important features found in high-priced cars.

See the Quality Chart at your Chrysler-Plymouth-Fargo dealer's. Then take Plymouth's "Luxury Ride" to see how much enjoyment and *value* your money can buy!

EASY TO BUY

Your present car will probably represent a large proportion of Plymouth's low delivered price... the balance can be arranged in surprisingly low monthly payments through your nearest Chrysler-Plymouth-Fargo dealer.

WEARING WOOLLY UNDIES and anti-heat glasses, this steel worker is typical of thousands

A BATTERY OF BLAST FURNACES at the Steel Company of Canada in Hamilton looks like this from above. Steel mills in United States work 80% capacity now

SINCE THE OUTBREAK OF WAR the demand for iron and steel products has taxed the productive capacity of Canada's mills, and while as yet only a small proportion has any direct connection with our war effort, the percentage devoted to armaments and shipbuilding will rise steadily. Additional sources of high-grade hematite iron to feed the hungry furnaces are rapidly being brought into production near Atikokan, Ontario

TO COPE WITH WAR DEMAND for steel ingots a new open hearth furnace was constructed at Hamilton. Note size of "chef" and his "soup" ladle

*Smart women know that
Kotex is definitely:*

**SOFTER
SAFER
SECRET**

Kotex sanitary napkins are made up of layer on layer of soft, flimsy tissue, sheathed in downy cotton, and wrapped in gauze. The *only* sanitary napkin that is truly "Wondersoft!"

One by one, each layer of tissue in a Kotex sanitary napkin absorbs moisture... then a special "Equalizer" centre guides this moisture evenly *throughout* the pad. No chance of striking through at one spot. And Kotex filler is actually 5 times more absorbent than cotton.

The especially tapered and pressed ends of Kotex fit *flutly*... remain invisible even under closely-fitting clothes... give you glorious freedom to go about your normal life free from fear of discomfort or embarrassment.

Only KOTEX is made in 3 sizes—Regular, Super, and Junior, for different women, different days.

IF YOU WERE ME YOU'D KNOW THESE THINGS...

You'd know that *only* Kotex sanitary napkins are scientifically designed, then practically tested to make sure that each feature performs perfectly its allotted task. You'd know that only Kotex has a soft, carefully folded centre (with more material where you need it... less in the non-effective portions of the pad). So naturally Kotex is less bulky, less apt to chafe than pads made with loose cotton fillers, wadded and wrapped in gauze!

"You scarcely know you're wearing it!"

ANOTHER CANADIAN BECOMES STAR

CANADA'S BARBARA READ, born in Port Arthur, December 29, 1917, appeared in "Three Smart Girls." Now she's starring on her own opposite Lee Tracy in "The Spellbinder." Her blue-eyed brunette beauty is effectively framed in little girl sailor (above, right) of natural straw bound in blue. She makes the most of her slender 5 feet 5 inches in utility bathing suit as she doffs slippers preparatory to a dip. Barbara's parents now live in Vancouver, B.C.

THE DEB SAID "NO!"

Was I lucky to find Marthe Steele in the dressing room away from the crowd! She's "news". She photographs like a dream. A picture of Marthe at the bazzer would give me an "in" with any fashion magazine. And we used to go to school together, so I was sure she'd give me a break. But when I asked her if I could shoot, she turned me down—flat!

"Not today, Janet!" she moaned. "It's my bad time of the month and I'm so chafed I could scream!" Well—I wanted that picture, so I blurted, "Good grief, Marthe, why be tortured when Miracle Modess now brings you 'Moisture Zoning'?"

And I quickly rounded up some Modess and showed her why "Moisture Zoning" is the grandest napkin improvement in years—because it acts to direct moisture inside the pad, leaving the sides dry and comfortable longer than ever before!

Martha was amazed, but I wasn't through. "Look," I rushed on as I opened a Modess pad. "This is why Modess is softer. It's made of fluff—entirely different from layer-type napkins."

Then I got some water—poured it on Modess' moisture-resistant backing—and proved that not a drop went through. "See? Modess means greater safety against accidents, too," I crowed.

I certainly got my reward! Five beautiful shots of Marthe, and the nicest little note: "You can take more pictures any day you want," she wrote. "Believe me, I never knew what real comfort and peace of mind were till you told me about Miracle Modess."

• Blooming on the blue Atlantic, just to leeward of the Gulf Stream, lies a cedar-scented isle where it's summer all year round. Tropical, it's still as British as Bond Street. Bermuda is its true name, but many who've been there call the place Paradise.

The moment you touch its coral shores every world-jaded nerve is lulled to rest. Banished from the mind is all thought of mad motor traffic, soot, smoke, drabness and din—even as they are banished from the island itself. Exiled, too, are the icy blasts of a Canadian winter. The eye meets only beauty . . .

in clear blue skies . . . varicoloured sea . . . rose-tinted beaches . . . strange and lovely semi-tropic flowers . . . moonlit coral roads.

Luckily this lotus-land lies close at hand—so why deprive yourself longer of its exotic peace and pleasures?

A SHORT, SAFE TRIP BY SEA OR BY AIR

Bermuda lies in the U. S. unrestricted travel area. Weekly sailings, from New York, under the American flag, by United States Lines' popular S.S. *President Roosevelt*. Four round-trip flights per week by new Pan American clipper ships. No passports or visas needed in Bermuda. Favourable exchange rate.

BRITISH GUNNERS SUPREME

OUTSTANDING SUCCESS of three British cruisers against German raider, Graf Spee, has gone into naval history. One reason for the victory was the skilful use by gunners of smoke screens. The destroyer above is laying a smoke screen during training exercises

HUNDREDS OF NEW ENTRIES for the navy, including recruits for Fleet Air Arm, are being trained for active service. Instructor here points out target to seamen learning in gunnery school. Gun turrets are set up in barracks and gun itself points out the school window

GUNNERS HERE are in action, firing at a towed target with ship's 4.7 guns. Great Britain in September had 170 destroyers built against Germany's 33, with 28 building against 23. Big guns of British battleships numbered 168 against Germany's 68. France has 100

6-WEEKS-OLD BABIES FED SOLID FOODS

Newest achievement in the development of baby foods is indicated by clinical and laboratory reports which state six-week-old babies are being fed homogenized vegetables and fruits.

Evidence that these homogenized vegetables and fruits are proving a valuable health aid, comes from doctors who are now recommending they be regularly included in the diets of babies as a protection against nutritional anemia.

Before the development of the special homogenization method, such early solid food feeding was impossible. But now, as clinical and laboratory tests show, homogenized foods can be digested much faster than strained foods. Increased nourishment from homogenized vegetables and fruits with less advancement over strained foods. Homogenization of baby foods is an exclusive process developed by LIBBY'S. AVAILABLE and developed by LIBBY'S. Most of these products are sold at most grocery stores. If your grocery does not stock these new baby foods, write LIBBY'S direct.

Modern mothers on the alert for new methods in baby care will be particularly interested in the 25-page, free, illustrated booklet entitled—"Your Baby's First Vegetables and Fruits," obtainable on written request to LIBBY'S, Chatham, Ontario.

Consult your doctor about feeding your baby LIBBY'S HOMOGENIZED Vegetables and Fruits.

*I can't understand
Dad...*

He's such a swell daddy—
but he just doesn't seem
to realize that using a
cold soaked hankie spreads germs
around. I know I got my last cold
from him! Mummy ought to tell
him about Kleenex.

Now, when I start sniffing,
Mummy grabs for
Kleenex first thing! She
says it checks spread of colds...
and I know it's so soft it keeps my
nose from getting all sore and red.

Don't know what we'd do
without Kleenex—
Mummy uses it for bibs
to keep cod-liver oil and orange
juice from staining my clothes. It
helps me keep tidy and it saves
her so much washing.

Only KLEENEX sold

Kleenex checks spread of
colds because each soft,
absorbent tissue is used
just once, then destroyed—
germs and all. Adopt the
Kleenex health habit in your

PRINCESS SIBYLLA, wife of Prince Gustaf Adolf, and her three daughters

KING GUSTAV of Sweden during recent manoeuvres

LEADER of the Swedish nation is 81-year-old King Gustaf, democratic and athletic. Thousands of his subjects—pilots and expert ski patrols—have "volunteered" to help the Finns stem the Russian tide, and have already given a good account of themselves. Sweden has a standing army of 150,000, a first-class air force. Sibylla (left) is wife of the son of the crown prince and heir apparent to the Swedish throne

Feel run down?

Many a doctor recommends Scott's Emulsion be taken daily as a tonic to help the body recuperate. It's the better—more palatable—way to take cod liver oil. Even children love it. And, Scott's Emulsion is an economical way to obtain the important Vitamins A and D.

1—Scott's Emulsion has all the values of cod liver oil and is four times easier to digest.

2—Easily Digested.—The exclusive method of emulsifying the oil permits digestion to start in the stomach whereas digestion of plain cod liver oil does not begin until the oil passes into the intestines.

3—Easy to take.—Yes, Scott's Emulsion has a pleasant taste. Easy to take and retain by children and adults.

4—Economical.—Scott's Emulsion is an economical way to obtain Vitamins A and D so necessary to strong bones and sound teeth. Try a bottle, today.

"HORSE OPERAS" STAGING COMEBACK

PLAYING OPPOSITE Russell Hayden in Zone Grey's "Knights of the Range" is Jean Parker

WILLIAM BOYD romped in to finish second in exhibitors' poll to find topmost star of westerns

IN THE MEADOWS below snow-crowned Mount Whitney, authentic backgrounds for thrilling "horse operas" are shot. This picture is classed as one of Hollywood's best "publicity stills"

AN ERA of "luxury" westerns is unfolding. Constant in their loyalties are devotees of westerns. Producers started thinking when "Destry Rides Again" teamed stars who had never before appeared in sagebrushers. Fifty million action fans can't be wrong! So we may expect to find the Gables and Shearers turning up in open spaces any day

I CAN'T BEAT WORMS BY MYSELF!

I'd like to catch the guy who spreads the story that a dog can worm himself with grass and gravel. I've had worms more than once (as most dogs do) but it takes the co-operation of the Bos to pull me through. He looks up my symptoms in the Sergeant's DOG BOOK — and the worms are doomed!

First time Sergeant's PUPPY CAPSULES did the job. (I was six weeks old.) After I chew up a few SURE-SHOT CAPSULES — they worked like magic. I don't know whether the Bos or the BOOK helps me most! You can't have my Bos, but you can get the BOOK free at drug or pet stores — or with this coupon.

Druggists Recommend Ras-Mah for
ASTHMA

Wouldn't you be happy, too, if after ten or twelve years of constant suffering from the choking, wheezing and fighting for breath of asthma, and the violent coughing of chronic bronchitis, you rediscovered complete health? That was the experience of Mrs. Wm. Anderson, Hreschbridge, Ont. Templeton's RAZ-MAH brought her relief. I have not suffered at all since taking RAZ-MAH, either from asthma, hay fever or chronic bronchitis," she writes. TRY RAZ-MAH now. Relief from \$1 worth — or money back.

CANADA'S CHILD PRODIGES

ANDRE MATHIEU, nine, of Montreal, has played piano since he was three; composed music since age of four. Mozart did not start composing until he was five. Andre's Manhattan debut was sensational. His father is director of Canadian Institute of Music

JACQUELINE NASH'S mother started teaching her to sing at 18 months. The nine-year-old Hamilton girl is dubbed "prima donna of the auto camps" because that's where movie scouts discovered her

CANADA'S bumper crop of child prodigies already are making names for themselves and bringing fame to their homeland. Valaine Conde, Winnipeg (above), is 10; half-French, half-Icelandic; has been playing piano since she was three. She has thrilled audiences in Toronto and New York

Relieve "Stomach Upsets"

Quick ANDREWS Way!

MANY common upsets for which we blame our bowels and stomachs—indigestion, fullness after eating, bad breath, dulled appetite—may be largely traced to **Faulty Elimination**.

Not just the bowels alone, but the whole eliminative process has become sluggish. Several organs need aid. So there's little hope of fast relief from laxatives, which work only in the bowels. For quick and more thorough comfort, take **ANDREWS Liver Salt**. This pleasant-tasting, effervescent medicine actually does **four things** to help the entire eliminative tract, thus giving relief in shorter time.

- 1 ANDREWS opens the bowels for normal movements.
- 2 Stimulates the liver, very often sluggish.
- 3 Helps the kidneys by reducing the amount of work they have to do.
- 4 Neutralizes excess gastric acid, speeding relief.

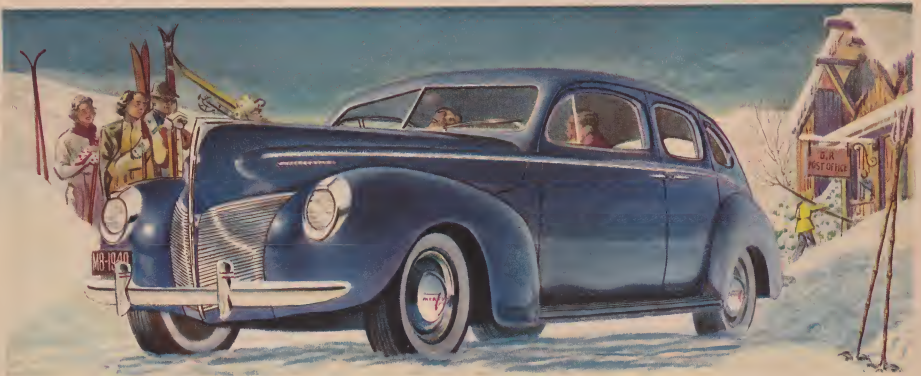

ANDREWS
Liver **SALT**

People who use ANDREWS regularly know it can be depended on for further-reaching, four-way relief. You'll like it, too! All drugstores. Four-oz. tin, 34c; 8-oz. tin, 57c; 10-oz. bottle, 69c.

Drive a MERCURY for Year 'round Comfort

TAKE A MERCURY TRIP ON A DAY THAT'S CRISP! Pick a bright, brisk morning for the fun of a run in the open! Get *all* the family together, or a lot of friends—the way this car's lines widen out makes just the difference between crowding and comfort! You'll be surprised at the time you make—you could press this easy cruiser all day long and never feel it. You don't really *drive* the Mercury 8—you guide it!

THOSE WINTER ROADS ARE SOMETHING! Rutted snow—slippery turns—and plenty cold! But you'll never suspect it in the Mercury. Levelized, stabilized-ride construction cancels out the bumps and sway, and the smooth V-8 engine can handle anything. Matter of fact, with new Controlled Ventilation, and the Mercury's way of hugging the road, it's as easy as watching a travelogue!

Any trip emphasizes the big-car stability and comfort of the Mercury 8—and explains its sensational success. When you reach the end of a day's drive relaxed and untired, you'll thank the Mercury's easy wheel, the luxury of extra-roomy interiors, and the restful comfort of the extraordinary Mercury Ride. Big hydraulic brakes and a high power-to-weight ratio justify your confidence.

And when you add up expenses, you'll approve the Mercury's biggest surprise: real ECONOMY (20 to 25 miles per gallon, say owners!)
